SUMMARY

Software Developer Intern with hands-on experience in MERN stack development and strong programming foundations in Python and Java. Skilled in building full-stack web applications, RESTful APIs, and responsive user interfaces. Passionate about solving real-world problems through scalable software solutions and actively practicing data structures and algorithms. Seeking an opportunity to apply technical and problem-solving skills in a real-world development environment.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Aditya University, Surampalem

CGPA: 9.03 / 10

Expected May 2027

Diploma in Computer Engineering

BVC College of Engineering, Palacharla

Percentage: 92.77%

2021 – 2024

SKILLS

Languages: Python, Java, C

Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js

Database: MongoDB, MongoDB Atlas, SQL

Tools: Git, GitHub, VS Code, Tailwind CSS

Concepts: REST APIs, Full Stack Development, Authentication, CRUD Operations

Soft Skills: Team Collaboration, Time Management, Empathy, Communication, Logical reasoning, Aptitude

EXPERIENCE

Software Trainee Intern - HQL Edu Tech Pvt. Ltd.

Nov 2023 – May 2024

- Identified and resolved critical bugs across multiple modules, improving application stability.
- Documented system workflows and technical processes to support maintainability and team collaboration.
- Participated in code reviews and daily stand-up meetings to improve code quality and team productivity.

MERN Stack Intern – Aims Technologies

May 2025 – July 2025

- Developed responsive front-end components using React.js, improving user interaction and UI performance.
- Built backend services using Node.js and Express.js to handle API requests and data processing.
- Integrated RESTful APIs and optimized backend logic, reducing API errors by 30%.
- Collaborated with backend and frontend teams to ensure smooth API integration and application functionality.

PROJECTS

Fake Job Detection System (2026) — Python, Flask, Machine Learning, Gemini API

- Developed an AI-powered web application to detect fraudulent job postings and assess job legitimacy in real time.
- Trained and evaluated Machine Learning models with TF-IDF feature extraction, achieving over 98% classification accuracy.
- Built Flask APIs and an interactive web interface for job verification, risk analysis, and user-friendly result visualization.
- Integrated Gemini AI with website and social media analysis, combining ML predictions, AI evaluation, website credibility, and online presence scores into a unified fraud detection and risk scoring system

Quiz Application(2025)—MERN Stack(MongoDB,Express.js,React.js,Node.js)

- Built a full-stack quiz platform with secure authentication and dynamic quiz generation.
- Implemented RESTful APIs for quiz management, user authentication, and result tracking.
- Developed a performance analytics dashboard to visualize user progress and historical results.

ACHIEVEMENTS

- Solved 1000+ DSA problems across LeetCode (400+), CodeChef (500+), and GeeksforGeeks (350+).
- Participated in 30+ coding contests; achieved Top 35% ranking on LeetCode and a 2 rating on CodeChef.
